

## WI Equity Composite & Model Performance vs. Benchmarks

WI composite and model portfolios are developed and managed by Wallick Investments, LLC.

Composite performance is the actual average asset weighted return of all accounts managed according to a set strategy.

Model performance is the performance of a hypothetical account. It does not represent performance of an actual account or account(s).

Although Folio Investments client accounts may be subscribed to managed models, actual performance will vary due to timing and tax issues. Each client's portfolio holdings and weightings vary based on individual time frames and risk tolerance.

The portfolio models and composites display performance data to illustrate past performance and do not guarantee future results.

Performance as of September 30, 2022

\*See page 8 for benchmark compositions.
